Fishing Buyer's Guide

BUILT TO FISH. BUILT TO LAST.™

Our Vision Statement:

Enhance our customers outdoor experience with quality brands offered through the retail channel.

Our Mission Statement:

We bring people together by producing innovative products to meet the needs of the outdoor enthusiasts through the retail channel.

Mark Davis

Flambeau Pro and
Host of Big Water Adventures

"Saltwater is a harsh environment. Electrolysis, Rust, and Corrosion are daily challenges that come into play every time you go. Unless you take precautions against it you will end up with a lot of destroyed gear and wasted money. Flambeau's Waterproof Tuff Tainers used in conjunction with Zerust Tabs are the perfect weapon to provide the protection you need in the ocean. Flambeau Waterproof Tuff Tainers are available in a variety of sizes, are interchangeable, and designed for use in the Saltwater Series Bags. It's the perfect system designed to carry and protect the gear I'll need for any BigWater Adventures we're after! "

Bill Lowen

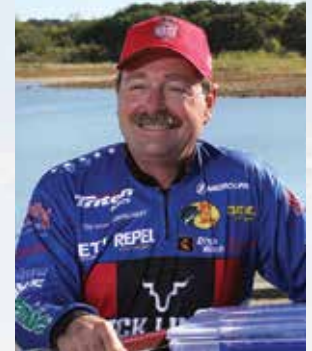

Flambeau Pro and BASS Elite Series Pro -
Professional Bass Angler

"If you want the best quality products at an affordable price, then Flambeau Outdoors should be your first choice. I make my living fishing and hunting and I need products that perform. Flambeau Outdoors pays attention to every detail in their products to make your time in the outdoors the best it can be. I choose Flambeau Outdoors, do you?"

Shaw Grigsby

BASS Elite Series and Major League
Fishing Pro

"These boxes are outstanding. Being on the water all the time we get moisture in our boxes. With the Flambeau Zerust boxes I have no problems with rust and corrosion."

Wayne Hauser

BASS Open and FLW Rayovac Series
Tournament Angler

"I am constantly out in wet rainy conditions. Since I have switched to the new Flambeau waterproof boxes with Zerust, I no longer have to deal with the issue of my valuable baits being ruined by water damage. The Flambeau waterproof boxes with Zerust save me hundreds of dollars each year that I used to spend replacing hooks and baits that were ruined by water damage. I would not go out on the tournament trail with -out my Flambeau boxes and Zerust capsules."

Clay Dyer

BASS Open Series Angler

"A lot of people might think I need special tackle storage. What I appreciate with Flambeau is that they have every option to meet my storage needs. The products are more accessible and durable than other tackle storage products. We all have so much invested in our tackle and equipment and Flambeau is the best way to protect it."

Bill Young

Ice and Bass Tournament Angler

"Any hardcore fisherman or woman will tell you that quality gear is a crucial factor to success. Some may call it an obsession, I call it having the right gear for what you are doing. Flambeau Outdoors has a fantastic line up of tackle storage solutions, rod cases, & rust/corrosion protection products. From the novice to the pro, they have quality product in anyone's price range. I have been using Flambeau's tackle storage products for many years now ice fishing, open water, and stream fishing for trout. The quality and durability of Flambeau's products keeps me coming back to protect my tackle and gear. I'm not saying these products will help you catch more fish, but they protect and organize the gear you store in them to give you a better opportunity to do so."

ZERUST® COMMERCIAL® & ACCESSORIES

Has this happened to you?

There's a cure...

Zerust emits a harmless vapor that forms a protective layer around metal... that stops rust, period.

Like this all-new "Ultimate Tuff Tainer" that's both... Waterproof and Rust Proof.

Innovative storage and protection...

It's even worse in salt water.

Flambeau Zerust!

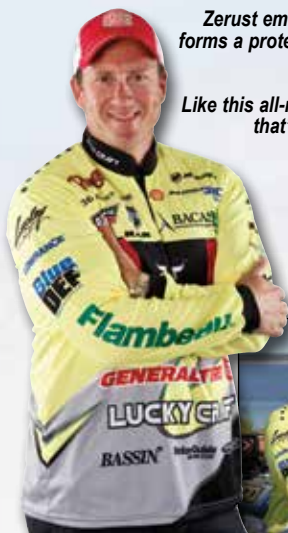

Look for the blue in many Flambeau boxes.

Or get tabs or capsules for your existing boxes.

American Made for over 65 years...

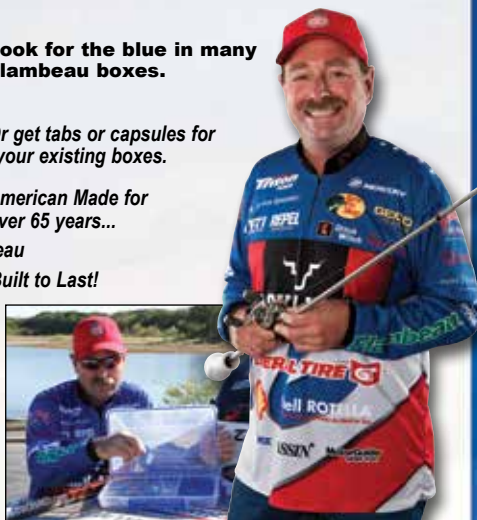

Flambeau

Built to Fish. Built to Last!

BUILT TO FISH. BUILT TO LAST.™

Zerust® has proven to be the absolute best way to protect your tackle against rust and corrosion. Molded into many Flambeau products, this patented polymer emits a harmless vapor, forming a protective layer around metal surfaces. With the Zerust® VCI (Volatile Corrosion Inhibitor) molded directly into the plastic, there is no need for messy VCI cardboard chips that lose their potency when they get wet. All Zerust® products will maintain their effectiveness for five years of hassle free, long lasting protection. Besides being "Built To Fish. Built To Last" Flambeau® tackle storage products with Zerust® are made to make all the tackle you store in them last as well. Look for the Zerust® symbol next to those products that feature this revolutionary technology. This is just another innovation from Flambeau®... your most trusted source in tackle storage.

6642ZR

FOAM FLY BOXES

BUILT TO FISH. BUILT TO LAST.™

TWO PATENTED FOAM TECHNOLOGIES.....For over 65 years Flambeau® has been manufacturing and delivering products based on a consistent drive to deliver unique, innovative products and our fly fishing product line reflects this drive. Vertical Friction Foam™

(VFF) is featured in our market leading Blue Ribbon™ Waterproof Fly Boxes & consists of rows of foam standing on end. The friction between the rows holds flies securely without ever having to pierce the foam. It is easier and quicker to take flies in and out of VFF than any other variation of slit foam available on the market today. Interlocking Friction Foam™ (IFF) is featured in our Fly Lockers. The friction between the rows of multi-colored foam holds flies securely without, again, ever having to pierce the foam. While most manufacturers struggle to figure out a better way to organize flies, we are excited to provide these two exciting technologies.

Foam Fly Boxes

With Magnetic Closure

Flambeau® Foam Fly Boxes are designed for the fly fisherman on the go. These lightweight boxes fit in a vest or pocket and float when dropped in the water. Produced from high density foam and secured with self-locking magnets, these boxes offer a great value while organizing a ton of flies.

3906F

Mark Davis
Big Water Adventures

Shaw Grigsby
Bassmaster Elite
Series Pro

East Coast, West Coast to the Gulf Coast Big Water Adventures features over 50 species of fresh and saltwater species. Billfish, tuna, wahoo, dorado, mackerel, shark, grouper, redfish, stripers and more - if it plies the coastal currents or the deep streams in pelagic paradise, Mark will be hot on its trail... with you as first mate.

Jack Link's Major League Fishing features 24 of the world's best professional anglers. This series is a televised bass tournament unlike any other. Real-time leader boards, surprise locations, no practice days and no limits are just a few of the ways Jack Link's Major League Fishing presents angling in a way the viewing public has never seen!
